Name:_____ Class:_____ Date:_____

Learning Target: I can write and simplify a ratio.
Learning Objective: I can explain what a ratio means.
Directions:
- Match each ratio to the correct "for every" statement by simplifying the ratio.
- Draw a picture to represent the ratio.

Ratio		For every	Picture
10:12		For every 4 circles there are 3 squares.	
3:6		For every 5 triangles there are 6 rectangles.	
12:9		For every 4 sad faces, there are 5 smiley faces.	
12:8		For every 1 heart, there are 2 stars.	
16:20		For every 3 x's there are 2 o's.
